

## SECTION E

1. What benefit(s) did you gain from your participation in the Summer Immersion Science program as it relates to your classroom instructional knowledge and skills?

I gained valuable insight in plant biotech laboratory procedures and practices which will help me deliver instruction in plant biotechnology more effectively.

## SECTION E

1. What benefit(s) did you gain from your participation in the Summer Immersion Science program as it relates to your classroom instructional knowledge and skills?

The program was great and I learned a lot which will help further our plant biotechnology program at McKinley Technology High School.
